

# Metal Modules

GREAT FOR  
BRANDED  
CONCEPTS!

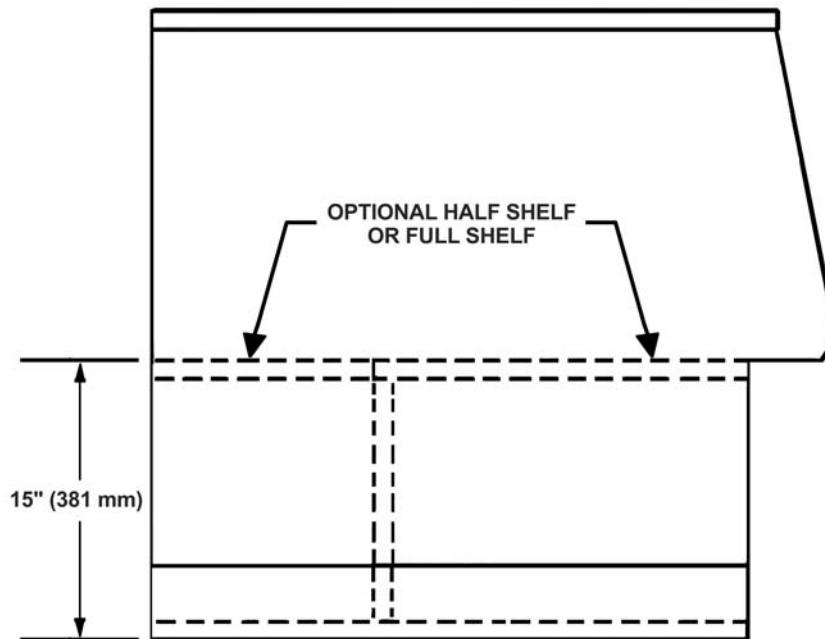

- **Branded look** – whether you're remodeling your existing counter space or constructing a new facility, these Broaster metal modules are the ideal way to give your operation a professional, branded appearance.
- **Coordinated look** – designed to perfectly complement our Perfect Hold countertop and complete deli cases for customizing your in-line or kiosk set-up in the Broaster color scheme.
- **Perfect fit** – available in four foot and six foot versions to fit your needs.
- **Durable construction** – made of aluminized, powder-coated steel with a stainless steel countertop surface.
- **Optional built-in backlit graphics** – standard *Broaster® To Go* graphics panel can be backlit with optional UL approved 3-bulb fluorescent light unit (power cord is included; 120 volt/1 phase/60 hertz/0.6 amp electrical requirement).
